Solution:

Set http version on proxy

```
location / {  
    proxy_http_version    1.1;  
    proxy_set_header      X-Real-IP    $remote_addr;  
    proxy_set_header      X-Forwarded-For $remote_addr;  
    proxy_set_header      Host $host;  
    proxy_pass             http://127.0.0.1:8081/;  
}
```
